STAT

[Redacted] Group Policy GMG 1799

Twelve copies of the surgical schedule, with anatomical index, have been forwarded under separate cover.

We thought six with covers will be sufficient for every day use. The other six are for spares.

The indexes as included should assist your auditors considerably.

We are, however, starting work on a more detailed indexing which will be even more useful. It will take a few weeks but will be forwarded as soon as possible.

Sincerely,

J. E. Frazell, Supervisor
